

Sponsorship offer

Scientific conference OPTO 2022

18-21 July

Organized by the representatives of
Warsaw research institutes:

Supported by international
organizations:

OPTICA | Formerly
OSA

SPIE.

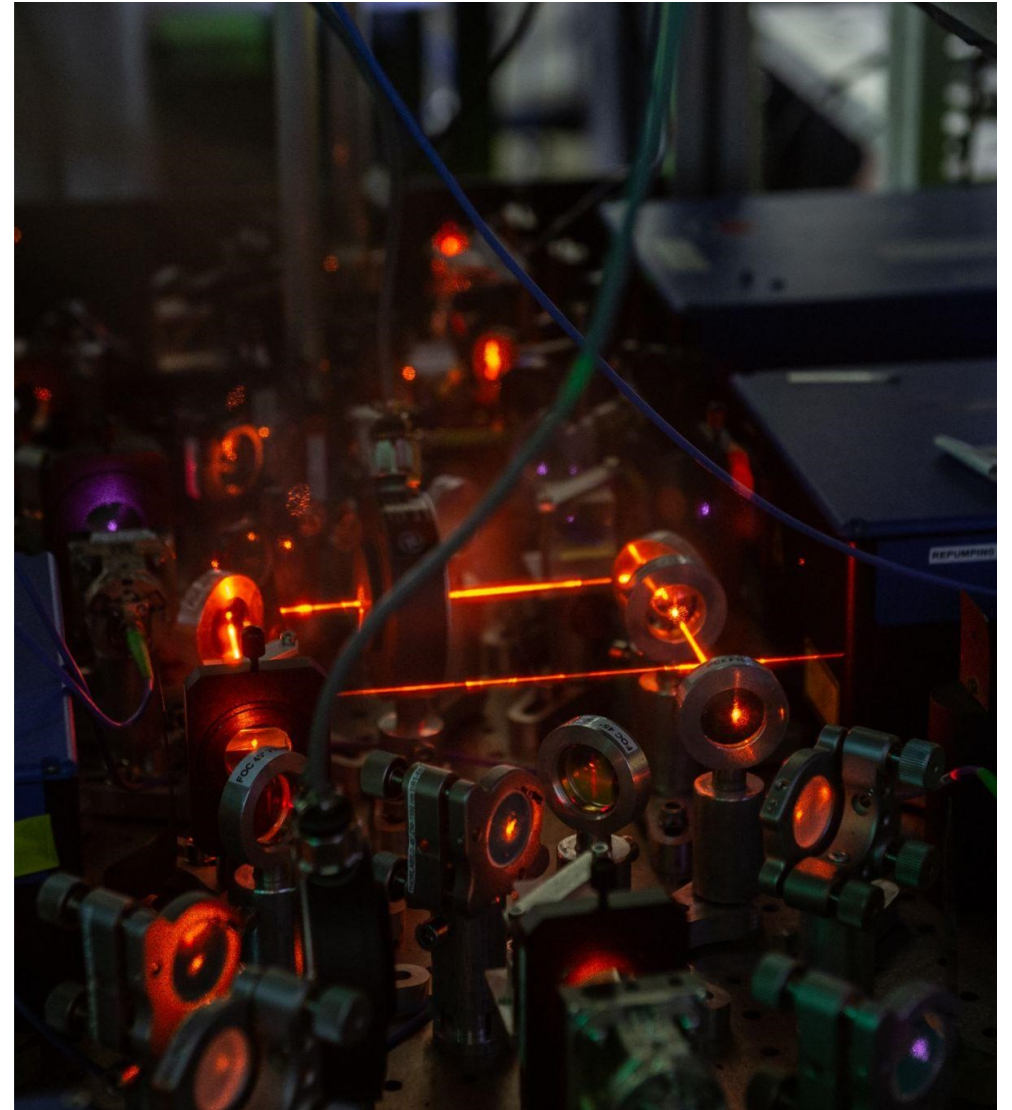

ABOUT CONFERENCE

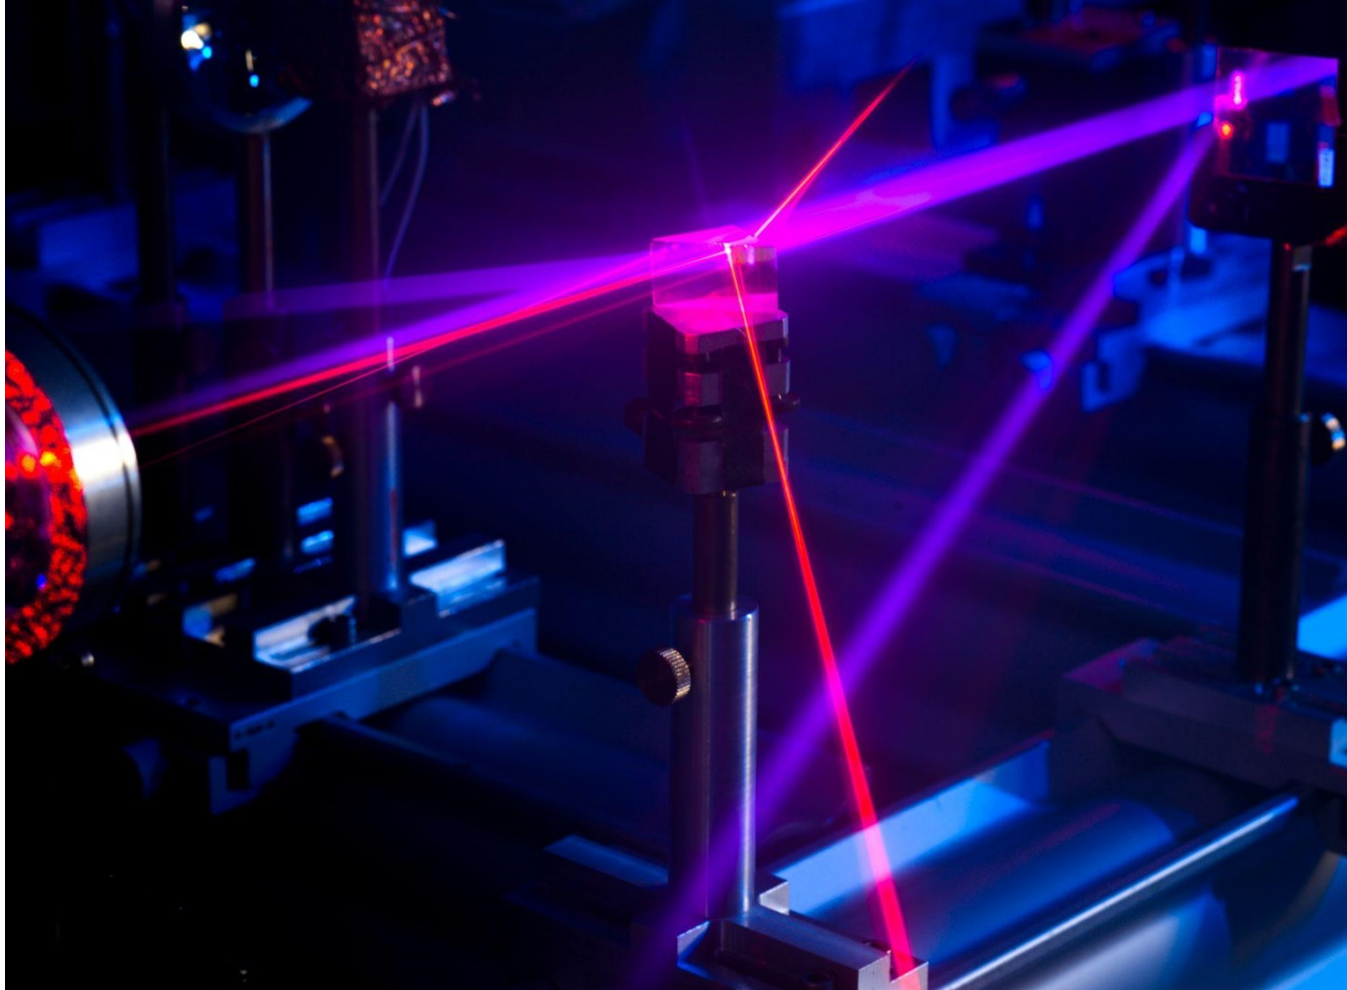

The OPTO conference is an international event for **young researchers** whose field of study is related to the broadly understood **optics and photonics**.

The main goal of OPTO2022 is to build a platform enabling the exchange of experiences, presentation of research results and **establishing scientific and business cooperation**.

Plenary talks of the most renowned leaders of science and industry will be an important part of the conference.

This year, the 17th edition of the OPTO conference will be held in Warsaw on July 18-21 and will be co-organized by research groups from the University of Warsaw and the Warsaw University of Technology.

BENEFITS FOR THE SPONSOR

Your company's advertisement can reach approximately a hundred young researchers, their research groups and institutes from all over the world.

We plan to promote the event via two communication channels:

The first aims at reaching the largest audience of potential OPTO2022 participants with information about the conference.

The second channel is related to the science outreach and building awareness that world-class scientific and technical projects are carried out in Poland.
